

Touch Up Prices

Any **Minor Touch Ups (not the full procedure)** after the appointment in 4-6 weeks is \$150, all touch ups are per area.

3 Months Touch Up: \$150	1 Year Touch Up: \$250	2 Year 6 Months Touch Up: \$375
4-6 Months Touch Up: \$185	1 Year 6 Months Touch Up: \$275	3 Year Touch Up: \$450
7-11 Months Touch Up: \$200	2 Year Touch Up: \$350	3.5 - 4 Years Fee: \$750

(Prices may vary according to results, when clients seem to have retained great color and shape costs are adjusted)

Any service **over 3 - 4 years** is no longer considered a touch up and will be considered as a new service. In order to avoid this please maintain & pre book your touch up appointments ahead of time.

When booking for your touch ups, please remember we can not change your existing lip blush shape, with touch ups we go over what you already have to to add color and definition to refresh them, (we touch up what you currently have).

If you decide to change your lip blush shape, that is no longer considered a touch up, as we are creating a new look/style which will end up healing in a different shade and shape that will not match what you previously had.

If you are looking for changes, you are required to let us know ahead of time since we would need extra time to create a new style and the fee is no longer considered a touch up fee. It would be considered a correction session with a \$250 - \$350 fee per session.

Thank you for choosing Lasting Impression!
